

WALTZING MATILDA - Australian Patriotic Song

Key C

C G Am F
Once a jolly swagman camped by a billabong,
C G7
Under the shade of a Coolibah tree,
C G Am F
He sang as he watched and waited till his billy boil,
C G7 C
"You'll come a Waltzing Matilda with me."

C F
Chorus: "Waltzing Matilda, Waltzing Matilda,
C Am Dm G7
You'll come a Waltzing Matilda with me."
C G7 Am F
And he sang as he watched and waited till his billy boil,
C G7 C
"You'll come a Waltzing Matilda with me."

Down came a jumbuck to drink at that billabong;
Up jumped the swagman and grabbed him with glee,
And he sang as he shoved that jumbuck in his tucker bag,
"You'll come a Waltzing Matilda with me."

Chorus: "Waltzing Matilda, Waltzing Matilda,
You'll come a Waltzing Matilda with me."
And he sang as he shoved that jumbuck in his tucker bag,
"You'll come a Waltzing Matilda with me."

**Up rode the squatter mounted on his thoroughbred;
Up rode the troopers: one, two, three:
"Whose that jolly jumbuck you've got in your tucker bag?
You'll come a Waltzing Matilda with me."**

**Chorus: "Waltzing Matilda, Waltzing Matilda,
You'll come a Waltzing Matilda with me.
With that jolly jumbuck that you've got in your tucker bag,
You'll come a Waltzing, you scoundrel, with me."**

**Up jumped the swagman, sprang into the billabong:
"You'll never take me alive," said he.
And his ghost may be heard as you pass by that billabong -
"You'll come a Waltzing Matilda with me."**

**Chorus: "Waltzing Matilda, Waltzing Matilda,
You'll come a Waltzing Matilda with me."
His ghost may be heard as you pass by the billabong -
"You'll come a Waltzing Matilda with me."**

The title is Australian slang for travelling on foot with one's belongings, waltzing, in a "Matilda" (swag) slung over one's back.^[2] The song narrates the story of an itinerant worker, or "swagman", making a drink of tea at a bush camp and capturing a sheep to eat. A billy is a small metal can used for boiling water over an open fire. Billabong is a branch of a river forming a backwater or stagnant pool, made by water flowing from the main stream during a flood.
